

# JIAN LEE C. RAMOS

San Jose del Monte City, Bulacan | +639369382861 | ramosjianlee@gmail.com | github.com/JaeYangLee

## SUMMARY

Passionate UI/UX Designer and upcoming Computer Science graduate, skilled in Figma, Photoshop, React.js, and TailwindCSS. Experienced in designing wireframes, components, and prototypes in Figma, and implementing them using React, TailwindCSS, and Framer Motion in VS Code. Passionate to learn new tools and concepts to support the company’s future design projects.

## EDUCATION

**Bachelor of Science major in Computer Science**  
STI Academic Center San Jose Del Monte  
San Jose del Monte City, Bulacan

**September 2021 – July 2025**

## PROFESSIONAL EXPERIENCE

**Philippine Coast Guard - CGWCEISC**  
**Frontend Developer Intern**

**March 2025 - May 2025**  
**Mandaluyong, 1550 Metro Manila**

Successfully led the development of a web-based Inventory Management System for the Storage and Accountability Officer of the Philippine Coast Guard – CGWCEISC, streamlining manual inventory into a faster, paperless process. Designed the UI/UX in Figma, including key elements like buttons, modules, modals, and the overall color scheme. Implemented the design using React.js and TailwindCSS by building reusable components and user-responsive functions.

## PROJECTS

**PLANTITOTITA**  
**Plant scanning mobile application**

Led the entire UI/UX design of the app using Figma and contributed to its implementation using Java and XML in Android Studio. Developed as a capstone project in my third year in college, the app identifies plants using augmented reality and detects plant diseases. Gained experience in mobile development, debugging, and user interface design.

## TECHNICAL SKILLS

UI/UX design	HTML	Leadership
Frontend development	Javascript (React)	Creativity
Web development	CSS (TailwindCSS)	Communication
Wireframing	MySQL (XAMPP)	Teamwork
Prototyping	Figma	Adaptability
Component-based design systems	Visual Studio Code
